Entered at the Postoffice in Tonopah as second class matter.

FOR PRESIDENT **WILLIAM H. TAFT**
FOR VICE-PRESIDENT **JAMES S. SHERMAN**

EDITORIAL COMMENT.

REFERENDUM LAW DECLARED DEFECTIVE

Attorneys claim the referendum can not be invoked in Nevada in the attempt to revoke the state police bill. It is declared by competent authorities that the constitutional amendment which adopted the referendum not only ignored the initiative, but failed entirely to pass an enabling act which would make the law operative, says the Eureka Sentinel.

In the act it is said that no provision has been made for the number of days which should elapse after the passage of such act before it could be referred to the vote of the people, and that no time limit has been set for the filing of a petition under which the matter may be submitted to the popular vote. It also fails to specify what percentage of the vote for or against shall be necessary for the measure to carry.

It is declared that although a constitutional provision has been enacted for the use of the referendum in legislation, the people will be unable to avail themselves of it. In this case the only manner in which the police bill can be repealed is through the action of the legislature.

SHOULD REPAIR THE SIDEWALKS

A great deal of inquiry has been going the rounds as to why the county commissioners do not lay a board walk at the intersection of Brounger avenue and St. Patrick street, where the sidewalk has been excavated to keep the water from running on the sidewalk along the Golden building. It is a common occurrence to see woman and children walking in the mud when they have to pass this spot and this winter the place will be a regular mire. With all the road work that has been attempted by the county commissioners it seems strange that this particular place has been overlooked.

Location notices in triplicate—handiest affair for prospectors and miners—contains carbon—150 notices in book For sale at the Bonanza office.

TIMEPIECES FOR BOY AND GIRL

The firm of Rotholtz brothers, having successfully carried on a business in this city for the past three years through the kindness of the people of Tonopah by their liberal patronage, are going to give a beautiful timepiece, both to a boy and girl, who attend the schools of Tonopah, and are also going to sell all school books at wholesale prices which will mean quite a saving to the school children, by comparison with what they have paid in the past. Being fortunate enough to secure a large supply of books and supplies for cash they are going to make things hum, so call and see the surprise in the amount of money saved. The firm will also give away free blotters and rulers.

HADN'T FORGOTTEN.

Miss Screecher—I wonder if Uncle Jim remembered me when he made his will? I used to sing for him?
Lawyer—Yes, he evidently remembered you—at least your name isn't mentioned in the document.—Chicago News.

WILL SINK TO GREATER DEPTHS

MONTANA-TONOPAH'S PROGRESSIVE POLICY IN THAT DIRECTION.

At the annual meeting in Tonopah, September 8, it was decided to follow the lead of President Knox for deep working. The management has no doubts as to the presence of ore bodies below the intrusion. After a full discussion the entire board present concurred in the policy advocated by President Knox and Superintendent Collins.

At present the deepest workings are at the 765-level, which is below the dacite. However, to thoroughly prospect the territory underlying the intrusion the company will sink a three-compartment winze at a point in the north crosscut on the 755 level.

The rich levels above, which the company has worked so profitably, have been projected below the intrusion and this winze is expected to cut these in place. This dead work will produce a great amount of waste which must be hoisted from the lowest level. As the main shaft is only a double compartment one, with limited hoisting capacity, it will be seen that the prosecution of this development will, of necessity, overtax the hoist, provided the company continues to raise sufficient ore to supply their forty-stamp mill.

The management considers the deep development far more important than the mere hoisting of a certain tonnage of ore and has contracted with the MacNamara Mining company to handle for them fifty tons of ore per day for a short period. This arrangement will prove beneficial to both companies and the camp as well. The Montana is thus enabled to keep the mill supplied, while they, at the same time prosecute their deep development work. The MacNamara gets the benefit of high percentage of extraction at a rate lower than offered by either the smelters or outside mills, while the entire district will receive the benefit of this deep development.

TURNING OUT THE BEST WORK

The blunder of the Bonanza is turning out the best work in the city, and it is giving such great satisfaction that anyone who has his work done there once, never goes anywhere else. The plant is the finest and most complete, not only in the State, but this side of San Francisco. We can turn out all kinds of work that is demanded in the offices of lawyers, brokers, promoters, mining companies, or for any other kind of business, and we guarantee satisfaction in every respect. One trial will be sufficient to establish the truth of this statement. It pays to go where only the best kind of work is done, and it pays to patronize home industry.

WEATHER REPORT.

The following is the meteorological report for the week ending August 11, 1908.

Highest barometer, Sept. 11...30.17
Lowest barometer, Sept. 7...29.84

the Ground Being Pushed**

Joins the now famous Blaisdell-Paulsen Lease on the same property and within 200 feet of the spot where the \$12,000 nugget was taken from the property. The company owns a block of 200x600 feet and have a TWO year lease. Blaisdell-Paulsen ledge goes into the block and will have 300 feet of this famous strike.

The above ledge has already been encountered and is 3 feet wide of good mill ore, with two 8-inch veins that will go better than \$30.
